**CONFIRMATION OF RESPONSE TO ELECTION REQUIREMENT**  
**ON APRIL 28, 2005**

In Response to the Election/Restriction Requirement of April 19, 2005, Applicant elects to prosecute Fig. 1 directed to species 1.

Applicant makes this election without traverse.

With respect to a generic claim, Applicant considers claim 1 to be generic.

With respect to the Election Requirement, the distinction between figures. 1 and 1A is the position of the reflecting means. It should be noted that the last limitation in claim 1 refers to mounting means for supporting the reflecting means proximate to the pair of coils or movement of the reflecting means relative to the moving means. The term "proximate" does not mean "in front of" or "to the rear of" and, therefore, this claim is considered to be generic.

Claims 2 to 4 are considered to be generic.

Claim 5 is directed to the figure 1 embodiment.

Claim 6 is directed to the figure 2 embodiment.

Claims 7 to 9 are considered to be generic.

Claim 10, another independent claim, is considered to be generic and here also the pair of coils are referred to as being proximate to the mirror.

Claims 11 to 19 are considered to be generic.

Claim 20 is considered to be directed to the figure 1A embodiment.

This confirms the telephone interview held with the Examiner on Thursday, April 28, 2005.
